February 2018

Dear Member,

I am writing to tell you about an update to your COSE Health and Wellness Trust coverage from Medical Mutual. **Coverage for certain treatment for autism spectrum disorders became effective January 1, 2018.**

Please review the enclosed benefit book and refer to the “Health Care Benefits” section for additional information on this coverage. You can also review your benefit book and other health plan information by visiting My Health Plan, our secure member website, at MedMutual.com/member.

You may also choose electronic communications from the drop-down menu if you’d like to receive this type of communication and others electronically in the future. Visit MedMutual.com/member and from the drop-down menu, click Communications Preference on the My Profile tab. Select “Email (Electronic)” from the preferences section and check the terms and conditions box. We recommend electronic delivery as it is a safe and faster way to receive health plan materials.

If you have any questions about the enclosed information, please call our Customer Care specialists at the number on your ID card.

Sincerely,

Patricia Decensi  
Senior Vice President, General Counsel
